The American Society for Safety Professionals (ASSP) is a global association for occupational safety and health professionals — committed to advancing members’ careers and the safety profession.

About Us
For more than 100 years, ASSP has served as a global advocate for the occupational safety and health (OSH) profession by providing advocacy, education and standards development—and by promoting the expertise, leadership and commitment of its members. With more than 37,000 members worldwide, we create safer work environments by preventing workplace fatalities, injuries and illnesses. Safer organizations enjoy increased productivity, higher employee satisfaction and a better reputation, while recording less lost time, and lower workers’ compensation and healthcare costs.

Our commitment to safety is what inspired us to create the ASSP Foundation to advance the safety profession with the help of donations from forward-thinking corporations, member communities, chapters, and individuals. The Foundation provides scholarships and professional education grants, funds cutting-edge research and supports ABET accreditation for academic programs. Visit www.foundation.assp.org to learn more about how you can contribute to the growth of the safety profession.

SAFETY PLUS PLUS - INDUSTRIAL HSE SUMMIT 2019 – Visakhapatnam will create awareness, solutions, and everlasting safe environment in Andhra Pradesh and in particular at Visakhapatnam.
It will get all the stakeholders on one platform to debate, deliberate and create solutions to ensure all-round safety of works. The objective of this summit is to emphasize the importance of safety of industrial workers and zero accident in factories.

DON’T LEARN SAFETY BY ACCIDENT
## INDUSTRIAL HSE SUMMIT 2019
